

NEW CLASS!

Wiggles and Giggles

Music & movement Class

Wiggles and Giggles is a fun music group for parents or care givers to enjoy together with their young child age 3months-3years. Throughout the session, children develop gross and fine motor skills, language, imagination, maths and pre-reading skills through participation in a variety of musical numbers. The children use a range of props, musical instruments and their own actions to participate in the songs. Each theme runs for five weeks so the children and caregiver become familiar with the routine and are able to participate easily by the end of the theme.
