

Kinder Bounce & Mini Basketball

by Asia Pacific Soccer Schools

Kinder Bounce is a basketball-based fun program for your children up to 8 years old. Different games are used to improve hand-eye coordination and children learn how to catch, throw and dribble the ball. It's a fun way to learn the basics of basketball while learning to take instructions and interacting with other children of the same age.

For a little bit older children, an upgraded program **Mini Basketball** awaits them. Mini basketball posts and mini basketball balls are used during the program, adding to the fun.
